

Display Fares by Cabin

Answer ID - AN616 / NE831

Did you know you can look at only the fares that apply by choosing to display fares by cabin?

Use the following modifiers to display fares for travel in the first class, business class and economy class cabins.

- ◆ First class - @F
- ◆ Business class - @C
- ◆ Economy class - @Y
- ◆ Premium first class - @P
- ◆ Premium economy - @W

Here's an example for travel in First class.
